Abstract (en)

[origin: EP0786226A1] The installation profile (11) fixed to the wall(10) is provided with a profiled area (15,15') for the accommodation, location and fixture of a support fixture part (17,17') matching the profiled area in cross-section and extending crossways from the profiled area with a support arm (16,16'). On the support arm accessory parts can be fixed with a tension component. The installation profile incorporates a wall connecting profile (12) screwable directly to the wall and a wall compensation profile (13) connectable to the connecting profile in a vertical position. The profiled area for the accommodation, location and fixture of support fixture parts is provided on the wall connecting profile screwable to the wall.
