Abstract (en)
[origin: EP0786545A2] The machine to form carded webs has a system of continuous belts (1-3) and trolleys (5-7). The belts (1-3) are close together to carry the web at the upper channel (A) between the first two belts (1,2) to the lower channel (D) across the first trolley (5), which is also defined by the first two belts (1,2) to deliver the web to a conveyor (14).
