Abstract (en)

Divides floor covering with fixture devices (2) pushed into rail ends and comprising at least one tab with screw holes. The fixture devices connect the rail with the brickwork courtesy of the installation blocks (3) that are fitted to the fixture devices. On the rail under side at least two support components (10) adjustable as to height are provided. The rail may have a downwardly open U-shaped profile (11), which can accommodate pin-type extensions (20) of the fixture devices, which are held by at least one clamp screw (21). A multi-sided nut (22) working in conjunction with the clamp screw may be held in a guide (12) of the U-shaped profile.

Abstract (de)

Die Bodenschiene (1) wird für die Montage an den Enden je mit Montageklötzen (3) verbunden, deren Dicke an die Dicke der Zargenabdeckung angepaßt ist. Auf diese Weise kann die Bodenschiene (1) montiert werden bevor die Zarge montiert wird und gelangt in eine Stellung, die ein Zusammenwirken mit dem Türblatt sicherstellt. Nach Fertigstellung des Fußbodens wird der Montageklotz ganz oder teilweise entfernt und die Zarge montiert. <IMAGE>
