Abstract (en)

[origin: EP0787962A2] A drying system for filled continuous tubes of film which is part of a filling, shaping, cooling, sealing, cutting, stacking and final packing plant has contra-rotating brush rolls (8,9,10,11) through the gap between which the tube of film is passed in the direction of arrow (3), so that the brush rolls are driven in a direction opposite to that of the movement of the tube.
