Abstract (en)

[origin: EP0788996A2] The invention relates to an arrangement for the renewal of the interior decoration of an elevator car having a car frame which comprises walls, a floor and a ceiling, to whose interior surfaces the decorative elements are attachable. According to the invention, the wall panels (8) are made to dimensions smaller than the corresponding walls (32) the car frame, and the edges of the walls are coverable by edging elements (42) substantially overlapping the wall panels (8). <IMAGE>
