Abstract (en)  
[origin: EP0789123A1] One band part (31) is fixed to the fixed frame and one (32) to the panel or pane. At least one of the band parts by means of an arm (35) engaging vertically to the frame or panel or pane plane is fixed to the fixed frame or panel or pane. A fixture piece with a U-shaped cross-section vertical to the hinge axis (A) extends in the direction of the hinge axis in the area of the corresponding band part. The fixture piece (40) in a plane parallel to the hinge axis and vertical to the frame or panel or pane plane fits into a chamber (4) adjacent to the fixture point of the corresponding band part in the fixed frame or in the panel or pane.
