Abstract (en)

[origin: EP0790359A1] The arrangement consists of a shallow box (4) which is mounted with its open end against a wall using four mounting lugs (14). The face of the box has a pattern of holes (20,21) on which any one of a variety of sanitary fixtures can be mounted. The arrangement further incorporates an accessory box (36), for e.g. valves, which has an extension (38) with which it fits into an opening in the top side of the box. The extension has a row of teeth (42,43) along either side with which securing elements (44,45) can be made to engage and which allow the vertical position of the accessory to be adjusted.
