Abstract (en)

[origin: WO9617030A1] There is provided a peroxyacid bleach precursor composition comprising: a) a peroxyacid bleach precursor, b) a water-insoluble inorganic compound of surface area 2m²/g to 4m²/g; wherein said precursor and said inorganic compound are in close physical proximity. Also provided herein are detergent compositions containing said peroxyacid acid compositions. The peroxyacid compositions of the invention show improved free flowing properties.
