Abstract (en)
[origin: EP0795287A2] The edge strip (1) is secured via a profiled retaining strip (3) in the rear of the edge strip and pressed into a groove cut in the edge of the furniture. The retaining strip is glued to the rear of the edge strip. The rear of the edge strip has a shallow groove (4) into which the support profile (5) of the retaining strip is glued. The retaining strip is made of elastic material and is shaped with retaining ridges (6) to grip inside the fitting groove.
