Abstract (en)
Compounds of formula <CHEM> wherein R and R1 can be the same or different and are C1-C18 straight or branched alkyl, C5-C12 cycloalkyl, optionally substituted with one or more C1-C4 alkyl; R2, R3 and R4 can be the same or different and have the same meaning of R or are hydrogen. Said compounds are useful as photostabilizing agents for synthetic polymers and as sunscreens for the protection of human skin from sunburns. When used as photostabilizing agents or sunscreens, the above described compounds are more resistant to hydrolysis.
