Abstract (en)

[origin: WO9715512A2] A receptacle for storing waste oil or fat comprises an outer container (1) containing an inner container (2). A filter arrangement (4) is provided in an opening (5) of the inner container to filter the material as it is poured through the opening into the inner container. The outer container has a lid arrangement (10) which is operable to allow material to be poured into the inner container.
