Abstract (en)

[origin: WO9618864A1] The apparatus is comprised of two launchers (6, 7) having the same technical characteristics, arranged next to each other, one of the launchers being symmetrical to the other one with respect to a vertical symmetry plane which separates them, both launchers (6, 7) having their own launching ramp (8 and 9) and their launching arm (4, 5), each at a different level, and being mounted integrally with an oscillating plate (10), said oscillating plate (10) being mounted on an oscillation shaft (11) of a base plate (12) which forms the fixed base of said apparatus. The invention applies to sport shooting.
