Abstract (en)

Method for adjusting cutting dies, in particular in a die cutting machine equipped with several simultaneously operated cutting dies (3A-3B), whereby the differences in height of the cutting dies are offset by means of a compensating sheet (13) made of a compressible material working in conjunction with the cutting dies (3A-3B), characterized in that a sheet made of polycarbonate or a material on the basis of polycarbonate is used as a compensating sheet (13). <IMAGE>
