Abstract (en)

[origin: EP0799691A2] The press includes a vertical frame (1), a fixed traverse (6) for a tool (7), and at least one movable traverse (8) for application of a closure force produced by a drive unit. The drive unit is a two-stage drive unit which incorporates a mechanical link drive, preferably a crank drive (9) and a short-stroke cylinder (11) arranged one after another, with the short-stroke cylinder directly acting on the cross beam (8)
