Abstract (en)

[origin: EP0800899A2] The housing frame (1) or shell is fitted with cladding panels forming the front, rear and side walls (17,2,3,4) of the housing, a cover (5) enclosing the frame for the cutting blades and a front panel (6) enclosing a sliding bread table (7). The housing front wall is provided as a profiled door which is hinged to one of the side walls (2,3) and overlapped by a lipped edge (14) of the front panel, preventing opening of the door without removal of the front panel.
