Abstract (en)
[origin: EP0801188A1] The shuttering comprises first (16) and second (17) mountings with holders for shuttering panels (24,25), accommodated on height-adjustable supports (30,31). The mountings hinge together and have a mechanism (26) to adjust the angle between them. The first supports has holders (14) for panels, formed by lengthwise iron channel-sections (20), in which wooden edge strips (22) on the panels fit. The holders can form part of a working frame with fixing device to the building.
