Abstract (en)
[origin: EP0802287A2] The grating is provided with two slide-on slide parts (28;628) on two profile sections (22,4) of two support profiles (14,16) which have a lateral bar (26) and two seats (30,32) on opposite ends of the bar for one of the profile sections of both support profiles. two tapped receivers (40) are provided on the lateral bar for two threaded shafts (36) of a foot. Both seats are clamped in the inserted profile section. The support profiles have a T-shaped cross section, and the seats are located on the lateral bar in such a way that in the specified assembly position, a vertically downward pointing profile section of the support profile is insertable from above in the seat.
