Abstract (en)
the stiffening fabric, designed to give long-term stability to a shirt collar, is made from a knitted material with its stitches (2) reinforced with weft threads (3) of thermally-stabilised synthetic fibres. The synthetic threads can be located between rows of stitches and are left straight, with no corrugations. The stiffening fabric can be used in conjunction with an interlining, e.g. of cotton and can have a coating of adhesive for joining it to the interlining. It is cut so that the reinforcing threads run lengthwise along the collar.

Abstract (fr)
La présente invention se rapporte à un support textile de renforcement (1) d'un tissu, d'une étoffe, d'un vêtement, se présentant sous la forme d'un tricot à mailles tramées (2), comprenant une insertion de fils de renforcement et stabilisation (3) s'étendant dans le sens de la trame entre les rangées de mailles, les fils de renforcement et stabilisation étant rectilignes dépourvus de contraintes d'ondulations. <IMAGE>
