Abstract (en)
[origin: EP0804887A1] The attachment has a support surface (14) held above the desk surface (11) of the work desk (10) via a number of height-adjustable spacers (15,19). The support surface has a reduced depth relative to the desk surface. Fold-out sections (16,17) allow it to be extended forwards, to match the depth of the desk surface, to form a standing desk surface.
