Abstract (en)

[origin: EP0805244A2] The fixture devices (1) may be formed as U-shaped fixture clamps, screws or nails. The substructure (3) can be a wooden frame or another plate. On both sides of the substructure plates (4) spacer blocks (14) are provided. The plates may be made of plaster cardboard or of wooden planks. Between the plate and the fixture devices a sound-insulating component is provided. The fixture devices have a head-side locating surface (10) on which the plate fits. Between the plate and the substructure, installation conduits (5) are provided, together with insulating material.
