Abstract (en)  
The invention relates to a centrifugal ventilator (10) comprising an impeller (2) rotating internally of a volute (3) afforded as an impression made in a parallelepiped single block (1) made of a plastic material. The single block (1) is provided with an external shape which is different to a shape of the volute (3) and exhibits, in a zone thereof not occupied by the volute (3), impressions (5) and/or through-holes (6) of various shapes and dimensions; a cover (4) also being provided for closing the impression forming the volute (3). <IMAGE>
