Abstract (en)
[origin: EP0806783A2] The contact element (1) has a contact region (2) at one end and a termination region (4) at the opposite end, with a resettable overload fuse module (3) inserted between them. The contact region and the termination region may each be coupled to the fuse module via a plug-in connection, a soldered connection, a crimped connection, or a screwed or rivetted connection.
