Abstract (en)  
A printer has a paper feed path having an insertion opening (27) for inserting cut-sheet paper (200), a discharge opening (18) for discharging the cut-sheet paper (200) and a stopper (222) disposed intermediate the insertion opening (27) and the discharge opening (18). The paper feed path also allows insertion of cut-sheet paper (500) through the discharge opening (18). The stopper (222) allows passage of cut-sheet paper (200) fed through the insertion opening (27) but stops cut-sheet paper (500) fed through the discharge opening (18) at a predefined position. <IMAGE>
