Abstract (en)
[origin: EP0810130A2] A child safety belt device used in combination with a safety belt for adjusting the position of a shoulder band of the safety belt to accommodate the proportions of a smaller passenger such as a child. The device includes: a fixing portion for fixing the device to the safety belt, the fixing portion being detachably fixed to a waist band of the safety belt; a link portion being attached to a shoulder band of the safety belt; a band for connecting said fixing portion with said link portion, said band being adjustable in length; and a stopper mounted on said band for keeping the length of said band in place.
