Abstract (en)

[origin: EP0813917A2] The cleaner (1) has a carrying grip (13) and an accessory container, consisting basically of a frame (2) running on wheels (5). There are support feet on the frame allowing the cleaner to be used in a standing or lying position. The carrying grip runs across the frame in the middle region. In the lying position, the carrying grip forms a support foot for the frame. The carrying grip also forms part of the accessory container. It may be fitted above the wheel axis, leaving an intermediate space between itself and the frame.
