Abstract (en)
A disposable body fluids absorbent article is provided on an outer surface of a backsheet thereof with a tape fastener for fastening the used article in a rolled up condition for disposable. The tape fastener longitudinally includes a fixed end portion secured to the outer surface of the backsheet, a free end portion longitudinally opposite to the fixed end portion, an elastically stretchable portion longitudinally extending between these opposite end portions, and an adhesive portion longitudinally extending between the free end portion and the elastically stretchable portion and releasably bonded to the outer surface of the backsheet. <IMAGE>
