Abstract (en)

[origin: EP0816620A2] The arm (22, 24) of a profile (8, 10) mounted from outside on the edge (6) surrounding the opening of a door or window frame 92) projects into the opening (4) and has fastenings for detachable mounting of a temporary building film. A fully covering facade insulation or brickwork covering (66, 72) can be mounted on the arm of the section projecting to the outside of the frame opening. A drain edge is provided on the arm projecting outwards from the frame opening for a plaster section (72) completely covering the frame and the section includes an arm (64) projecting outwards on which a plaster grid (68) or a connecting section can be fastened.
