Abstract (en)

[origin: EP0816626A2] The blind screen comprises horizontal strips with concave front (12) and concave back surfaces (13), together with at least one aperture (10) to allow passage of a lifting band and at least two spaced apertures (8) for the passage of a guide cord, each having a recess (7) projecting on to the back. The recess is teardrop-shaped and the apertures are slots. The apertures each extend to the bulge region (7b) of the impression. The side (7d) of the impression above the aperture are V-shaped. The strips may be of comparatively thin and elastically flexible sheet.
