Abstract (en)
[origin: EP0819790A1] The invention relates to a cloth structure and has for its object to provide a cloth structure which is watertight, windtight, flame-retardant, resistant to chemicals, antistatic and permeable for water vapour. In respect of the above the invention generally provides a cloth structure, comprising: a base cloth (4); at least one fire-retardant and flame-extinguishing first cover layer (6); and at least one second cover layer containing polyurethane (5), which cloth structure is watertight, resistant to chemicals, at least slightly porous and thus permeable for water vapour.
