Abstract (en)
[origin: EP0822044A1] A system for loading a multi-component soft mass into the moulds (2) of ceramic tile-forming presses, said moulds comprising at least one forming cavity (3) for tile compaction, characterised by temporarily placing on a movable horizontal belt (8) at least one layer of powder material, and, by means of said belt, transferring into said at least one cavity said at least one layer of powder material, without causing it to undergo horizontal displacement. <IMAGE>
