Abstract (en)

[origin: WO9632921A1] A foaming agent comprising at least one amphoteric surfactant and at least one quaternary ammonium cationic surfactant which foams by being dispensed or sprayed, and provides improved foaming and clear, stable concentrate to foaming cosmetic, compositions. In one preferred embodiment of the present invention, the foaming agent is comprised in a foaming cosmetic composition such as a hair mousse composition, comprising the foaming agent and further comprising a solvent and optional components such as polymer, preservative and propellant.
