Abstract (en)
[origin: EP0823232A1] Supports (2,3) fastened to each cupboard side wall keep the cupboard (1) raised off the floor. Each support has a main board (4) lying adjacent to the cupboard side wall and two vertical wings (5,6) which give the support a U-shape. Shelves, baskets or rods are fitted between the two wings. The supports rest on height-adjustable feet and are covered with flat boards. The height of the supports is greater than the cupboard height. L-shaped boards can be fitted in between neighbouring supports to join together adjacent units.
