Abstract (en)

Vessel (1) provided with a profile section (6) which is arranged so as to be displaceable in the vertical direction. By means of a carriage (7) which is to be attached to the profile section (6), tools (8) mounted on the carriage can be taken underwater and can carry out operations there. Operations of this kind are dredging the bottom (28) beneath the vessel, and treating walls or the bank in front of or next to the vessel. <IMAGE>
