Abstract (en)  
[origin: EP0827363A2] First contact points (25-28) are for voltage pick-up of heating wire. The second contact points (29) are fixed to the heating conductor holder and provide especially voltage supply of the heating element and/or electrical connection of the heating element with a further electrical user, especially a DC motor. The contact points (25-29) are connectable in different, positions with the heating conductor, and/or the heating conductor holder.
