Abstract (en)
[origin: EP0827925A2] The printer has a flat sheet feed from a sheet stack (S) supported on a height adjustable platform to align the top sheet with the sheet lifter (3). The stack support platform (5) takes a pallet and is supported on adjustable fittings between two fixed vertical support rails. The stack platform is raised and lowered by chain guides (6) and the platform frame has screw adjustments on each side. The front of the stack is aligned by two vertical angle profiles with adjustable spacing.
