Abstract (en)

[origin: WO9638503A1] A flexible composition contains a vinyl chloride polymer and a block copolymer. The block copolymer contains a polyethylene oxide block and a block made of a polymer that is different from but can be mixed with the vinyl chloride polymer. Also disclosed is a diblock polyethylene oxide and poly- epsilon -caprolactone copolymer usable in this composition, as well as the use of this composition for manufacturing various articles and an article made from this composition.
