Abstract (en)

Method for marking a food product (1) with a bar code, in particular a meat product, which is or can be divided into portions along cutting faces, comprising the step of placing a number of marking lines, such as dye lines, incisions (2) and the like, on the food product crosswise to the cutting faces thereof, which marking lines can be distinguished in the individual portions (3) of the food product. A food product obtained in this way is also described. <IMAGE>
