Abstract (en)

[origin: EP0829341A2] A method and machine (1) for producing tablets (9) of medicinal powder (3); the method including, for each cycle, the steps of withdrawing a number of quantities of medicinal powder (3) from a vessel (10) by means of a metering device (21), compressing the quantities of medicinal powder (3) to form respective tablets (9) of medicinal powder (3), and, finally, depositing the tablets (9) of compressed medicinal powder (3) inside containers (7) by which they are preserved; the compression step including a precompression step wherein a die forming device (21) compresses the quantities of medicinal powder (3) inside the vessel (10) to preform the tablets (9), and a compacting step wherein the die forming device (21) compresses the preformed tablets (9) on a horizontal plate (50) located outside the vessel (10) and having a number of dies (53) for imparting a given form to the tablets (9). <IMAGE>
