Abstract (en)

A modular system to make furniture shutters based on a single modular section bar (1) with varying length and width depending on the shutters' size to obtain and their use, said section bar provided with lengthwise means (6, 7) which allow the link "n" times to "n" section bars having the same shape; the link of the single section bars is made possible by a continuous seal (6). Besides, the modular section bar is provided lengthwise with border means (3) and (55) and crosswise with connection means (6) and border means (44) and (46). <IMAGE>
