Abstract (en)

The closure for cushion cover(U), duvet cover etc. having an opening(O) normally secured by buttons, press studs or other fasteners uses lengths of press tapes spaced along each side of the opening to enable the opening to be closed and opened. The tape lengths can be in a single row along each side of the opening, or two or more rows can be used for a more secure closure. The spacing between tape lengths in each row is 10 to 15 cm. The press tapes can be mounted on a support tape which is applied to the cover.

Abstract (de)

Die Erfindung betrifft einen Überzug (U) mit mindestens einer verschliessbaren Öffnung (O), entlang der mindestens ein klettverschlussartiges Verschlusselement (S1, ..., Sn) angeordnet ist, wobei in einer bevorzugten Ausführungsform der Erfindung mehrere Verschlusselemente (S1, ..., Sn) in regelmässigem Abstand entlang der Öffnung (O) angeordnet sind. <IMAGE>
