Abstract (en)

[origin: EP0838879A1] A multi-contact connector plug has a metal frame with side elements 74,76 that are formed with profiled slots 90,92 into which fit the mating parts of an electrical connector 12 that has a number of parallel pins. The top of the frame is shaped to receive a locating block into which is set the electrical cable 18. The top and bottom surfaces of the housing are enclosed by metal side plates 84 that provide screening against electro magnetic effects.
