Abstract (en)
A labelling process comprises a first step of attaching a first label (12) substantially permanently to a substrate (10). Thereafter, the process comprises a second step of attaching a second label (14) to the substrate. The attachment of the second label (14) is such that it can be removed from the substrate (10). When attached, the second label (14) substantially conceals the first label (12). <IMAGE>
