Abstract (en)

[origin: WO9702908A1] Guiding roller for guiding wire blanks to the rollers of a wire rolling mill, which guiding roller (10) comprises a cylinder shaped guiding roller having a central opening extending throughout the roller. The guiding roller (10) comprises an inner central ring (11) which constitutes an integral part of the guiding roller (10) and where the inner surface of the guiding roller (10) together with the sidewalls of the inner central ring (11) constitute ball races for ball bearings (12, 13) arranged on each side of the inner central ring (11).
