Abstract (en)

[origin: US5897065A] A collecting container for collecting cut material of paper shredders or similar comminuting devices in which the cutting mechanism of the paper shredder rests with its housing on a box-like or frame-like base frame having a fixed bottom, and wherein the container can be pushed into the base frame from the front side of the paper shredder underneath the cutting mechanism housing. The container and the base frame have at the bottom thereof positively engageable guide elements.
