Abstract (en)

[origin: EP0843051A1] The drain/overflow has a syphon trap (3) connected to collector pipe (10), which connects an overflow pipe (14) and a drain pipe. The connection between syphon trap and collector pipe is self-sealing and is suitable for blind connection. The lower end (10a) of the pipe is fitted vertically into a holder aperture (8) of the syphon trap which has a sealing collar (9). The lower end (14a) of the overflow pipe may be cut to length and this end is fitted into upward directed pipe socket (13) formed on the drain pipe (12).
