Abstract (en)

[origin: WO9704102A1] The present invention relates to Curvularia verruculosa haloperoxidases and isolated nucleic acid fragments comprising nucleic acid sequences encoding the haloperoxidases as well as nucleic acid constructs, vectors, and recombinant host cells comprising the nucleic acid sequences. The invention also relates to methods for recombinant production of the haloperoxidase. The invention further relates to compositions comprising the haloperoxidases and methods of using the compositions for killing microbial cells or inhibiting growth of microbial cells.
