Abstract (en)

[origin: EP0844038A1] The system to guide the sides of cast metal strands has a rotating roller body (13) with a roller holder (8) rotating in a housing (2). It carries a roller body (13) with an end section (8a) of the holder (8) extending from the housing (2). The roller is keyed to the body. At least the roller body (8) is within a coolant flow.
