Abstract (en)

[origin: EP0844696A1] The Male to Female Connector Assembly has a Lighting base connector with protruding male pins (420). There is an outer holder section (312). The female plug (100) plugs into the male section with an intermediate protection section (200) placed in position. The protection section has two outer flexible arms (210) which fit into the outer holder section, snap fitting into position, and removable by flexing the arm sections.
