Abstract (en)

[origin: EP0845418A1] There is provided a drive system 11 for a packaging machine for applying cartons to a plurality of articles. The drive system includes first and second drive motors 12, 13 and associated main shafts 14,15, the second drive motor 13 taking a speed reference from the first drive motor 12. The first main shaft 14 has a number of power take-offs 16 for driving the product pitched functions of the packaging machine. The second main shaft 15 also has a number of power take-offs 17 for driving the non-pitched functions of the packaging machine. <IMAGE>
