Abstract (en)

[origin: WO9703681A1] Methods of killing or inhibiting the growth of cells are disclosed. The invention provides the administration of a WAF1 inhibitor to cells which have induced a WAF1-dependent pathway. The amount of a WAF1 inhibitor which is administered to the cells is sufficient to inhibit the growth thereof or even kill the cells. The method can include subjecting the cells to a treatment which induces a WAF1-dependent pathway.
